- (6) Repealed by Session Laws 2017-204, s. 2.5(a). For effective date and applicability, see editor's note.

(b) Determining Threshold. – A retailer of a bundled transaction subject to this section may use either the retailer's purchase price or the retailer's sales price to determine if the transaction meets the fifty percent (50%) test or the ten percent (10%) test set out in subdivisions (a)(1) and (a)(3) of this section. A retailer may not use a combination of purchase price and sales price to make this determination. If a bundled transaction subject to subdivision (a)(3) of this section includes a service contract, the retailer must use the full term of the contract in determining whether the transaction meets the threshold set in the subdivision.
